# GOSE:

#### Une bibliothèque pour l'informatique quantique en OCaml

Denis Carnier, Arthur Correnson, Christopher McNally, Youssef Moawad

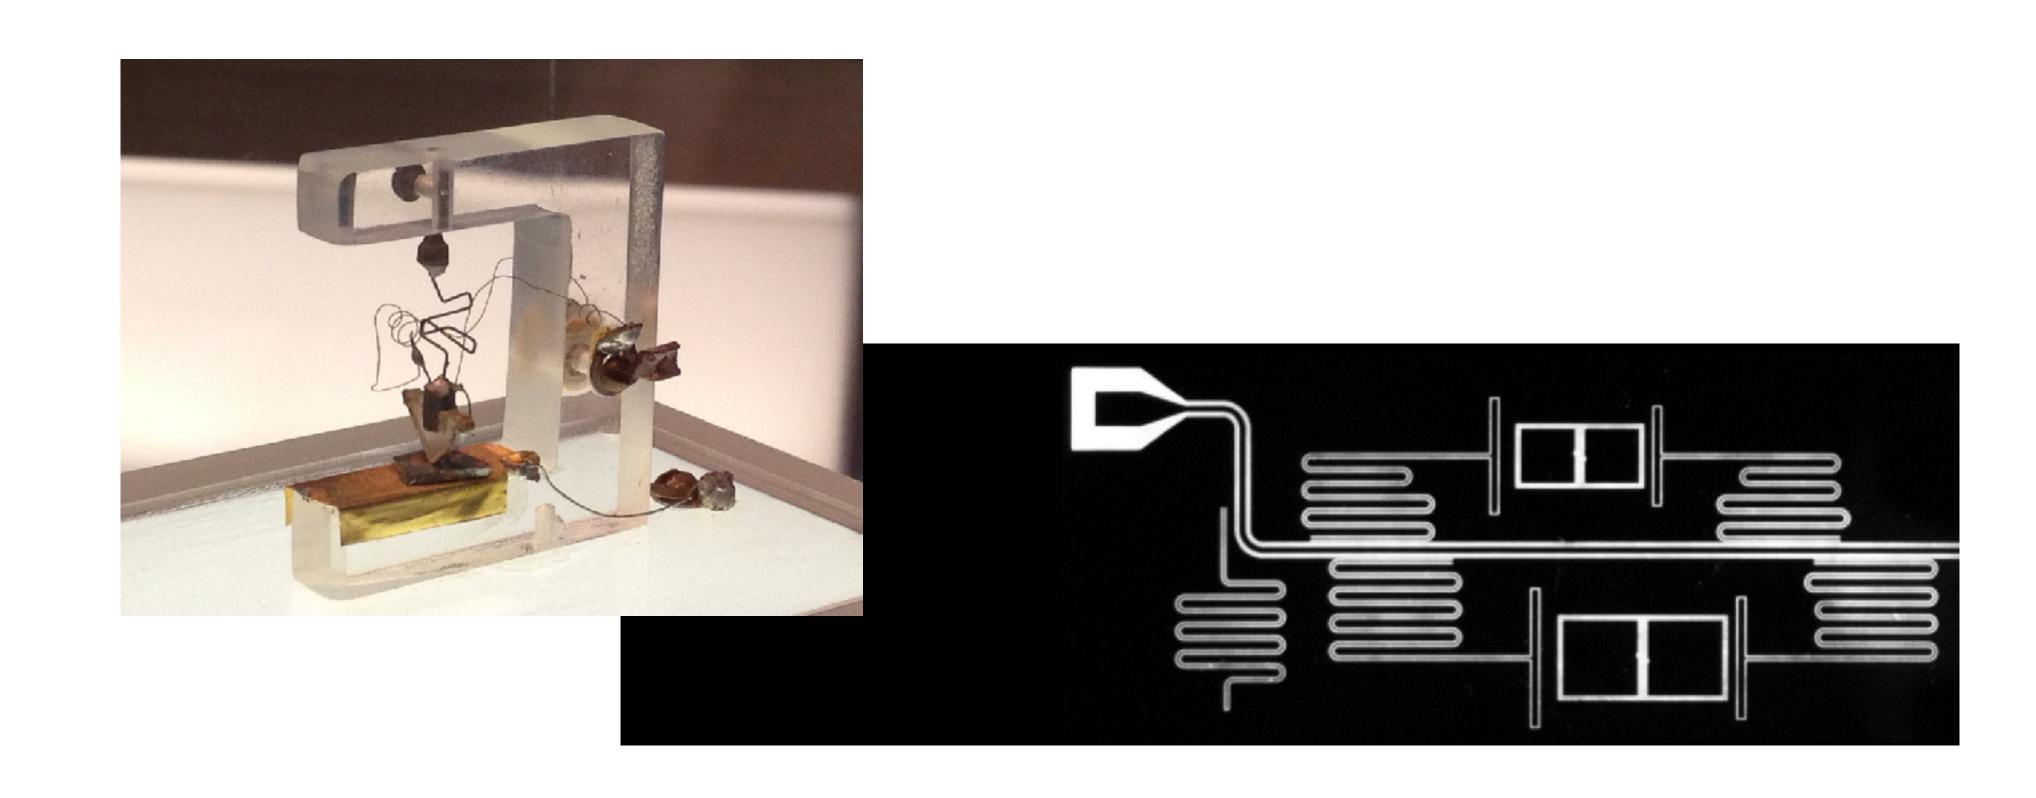

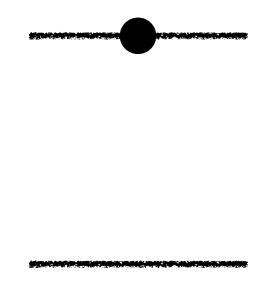

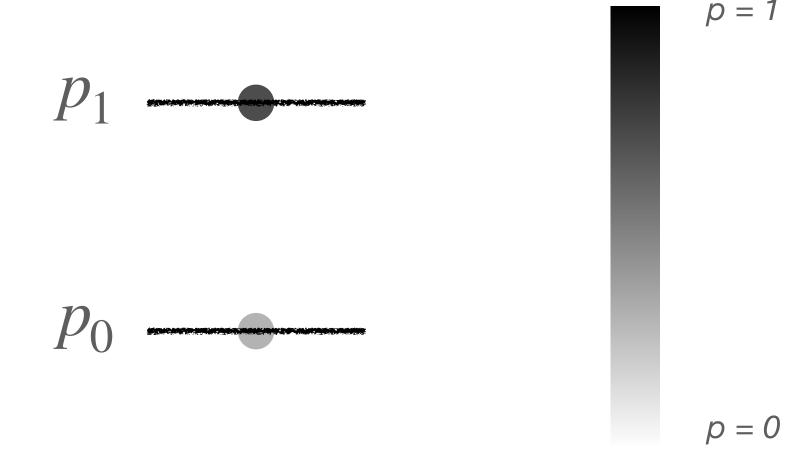

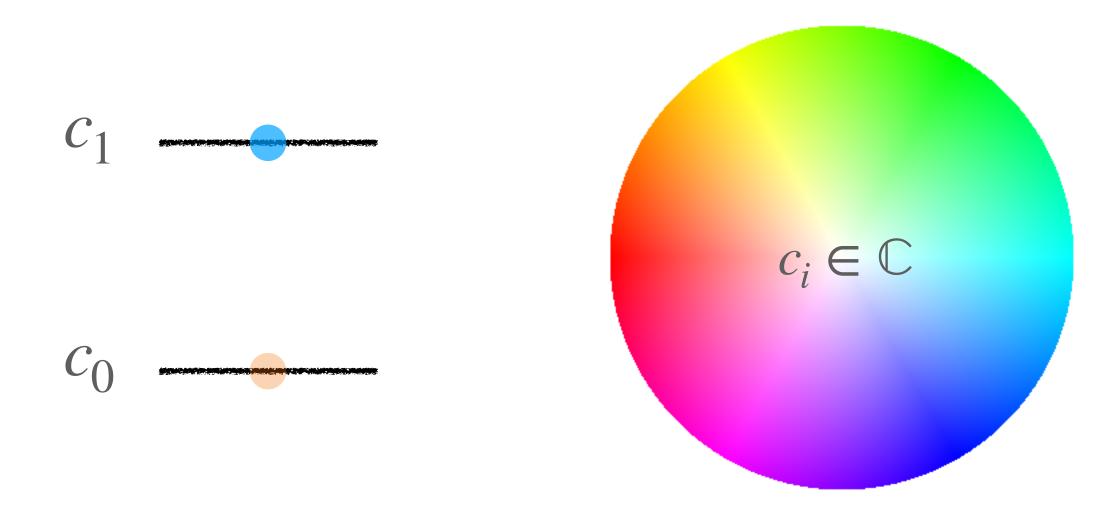

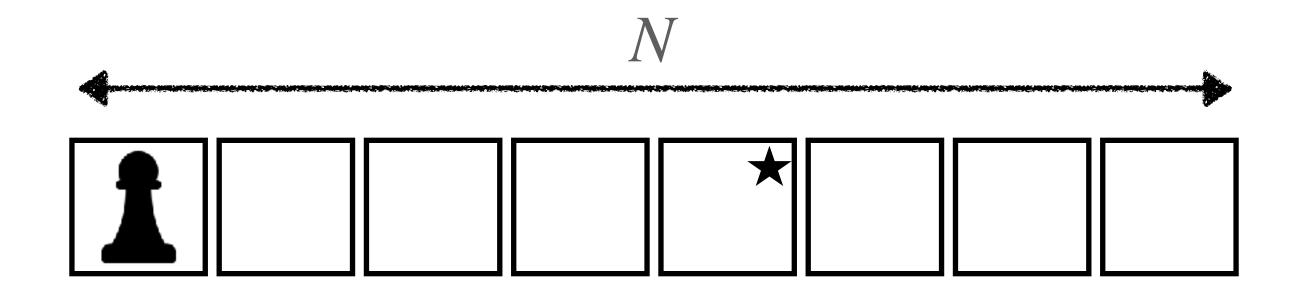

$$p_0 + p_1 = 1$$

$$|c_0|^2 + |c_1|^2 = 1$$

# Que peut-on faire avec ça?

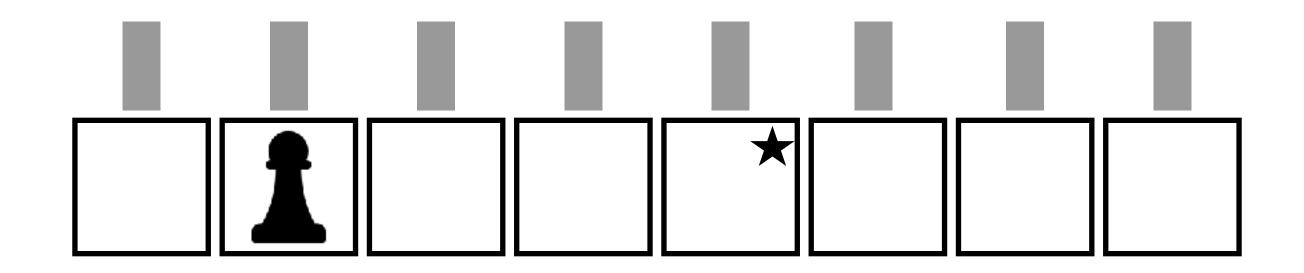

Chercher dans des bases de données

Borne inférieure classique:  $\Omega(N)$  étapes.

#### Algorithmes aléatoires

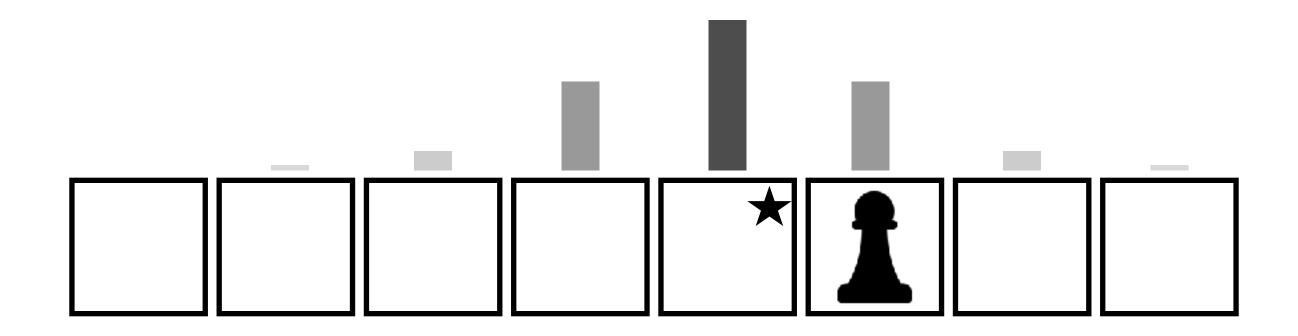

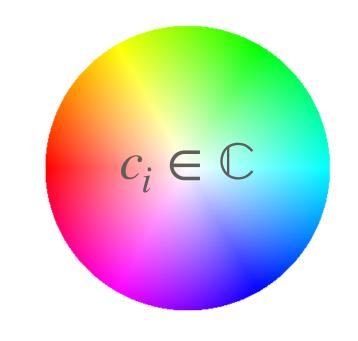

Ceci prend aussi  $\Omega(N)$  échantillons.

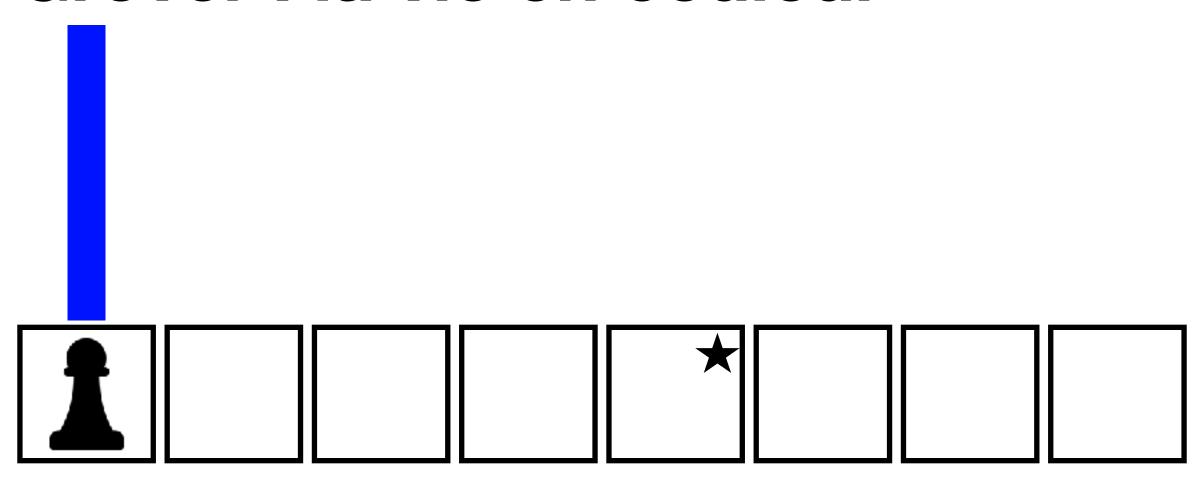

#### Algorithmes aléatoires

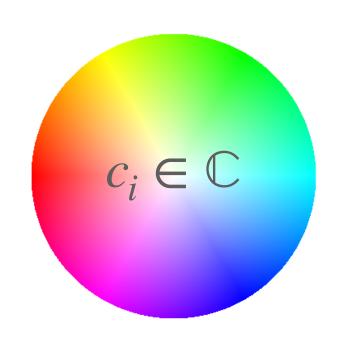

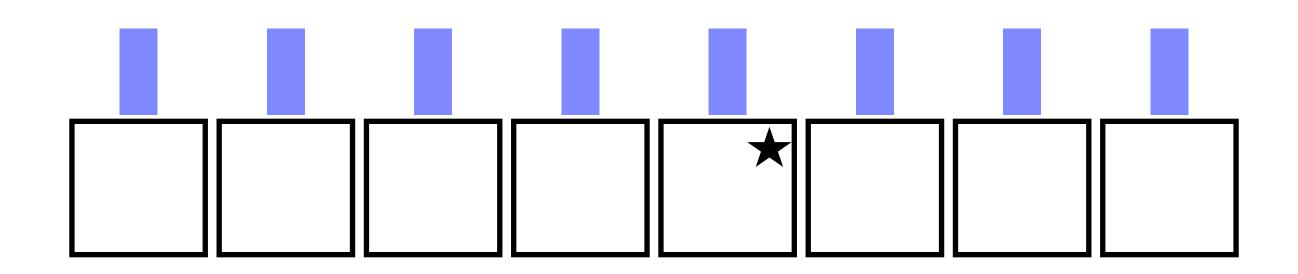

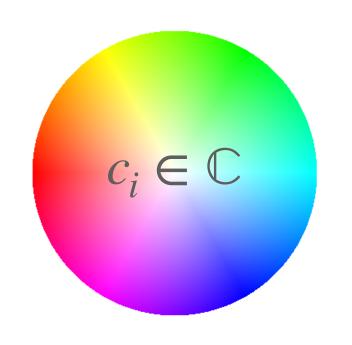

...ou moins, avec une distribution biaisée.

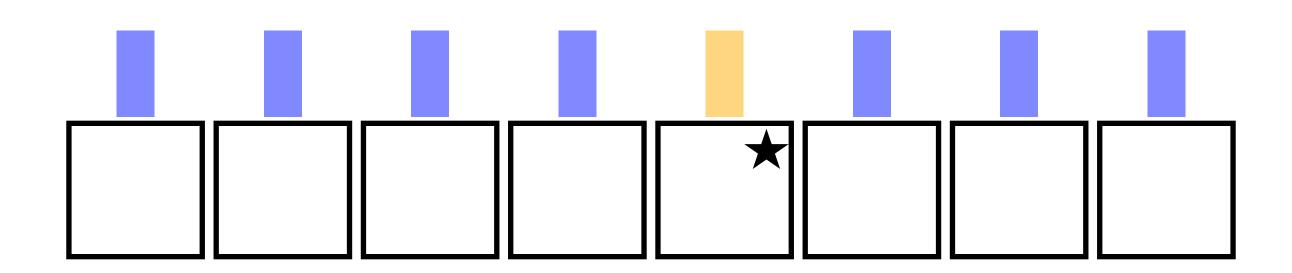

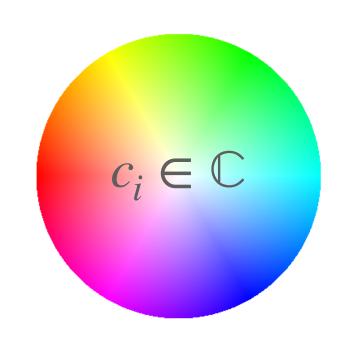

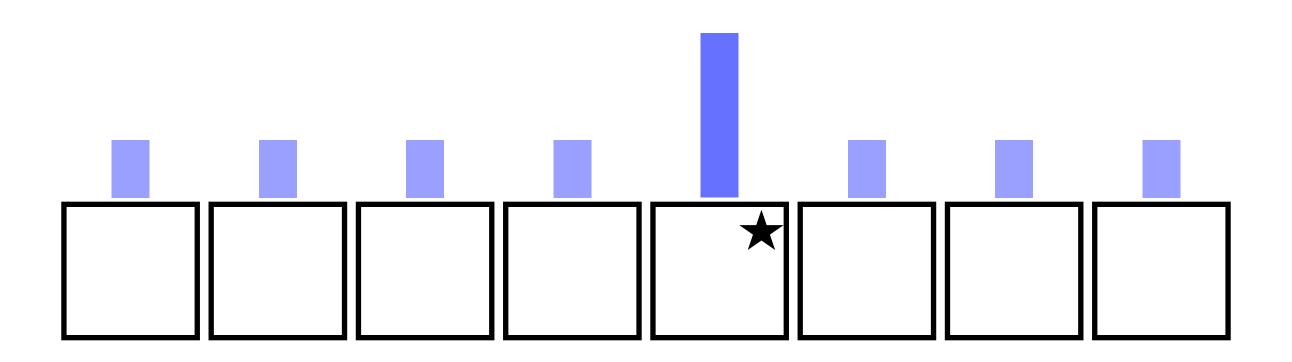

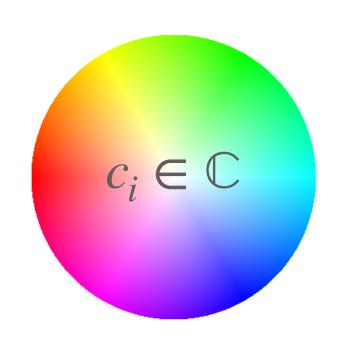

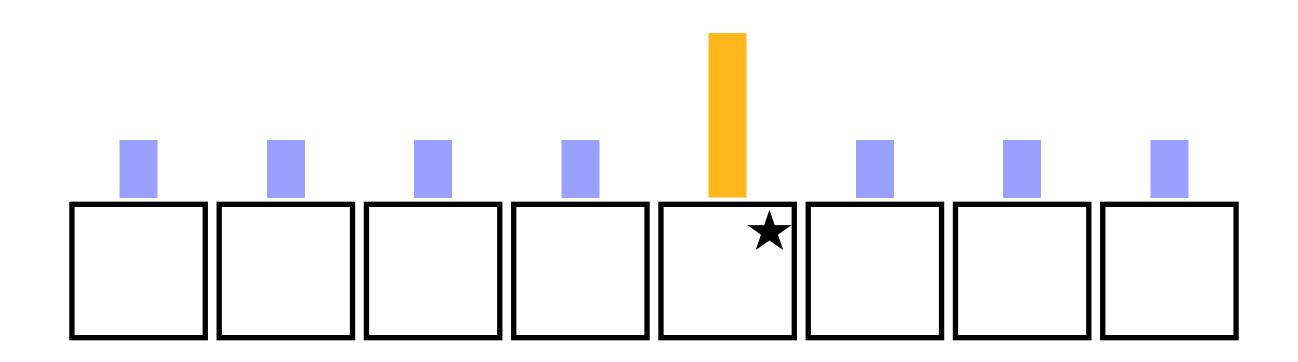

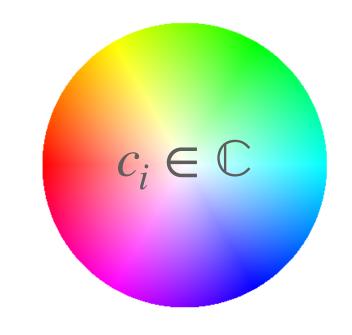

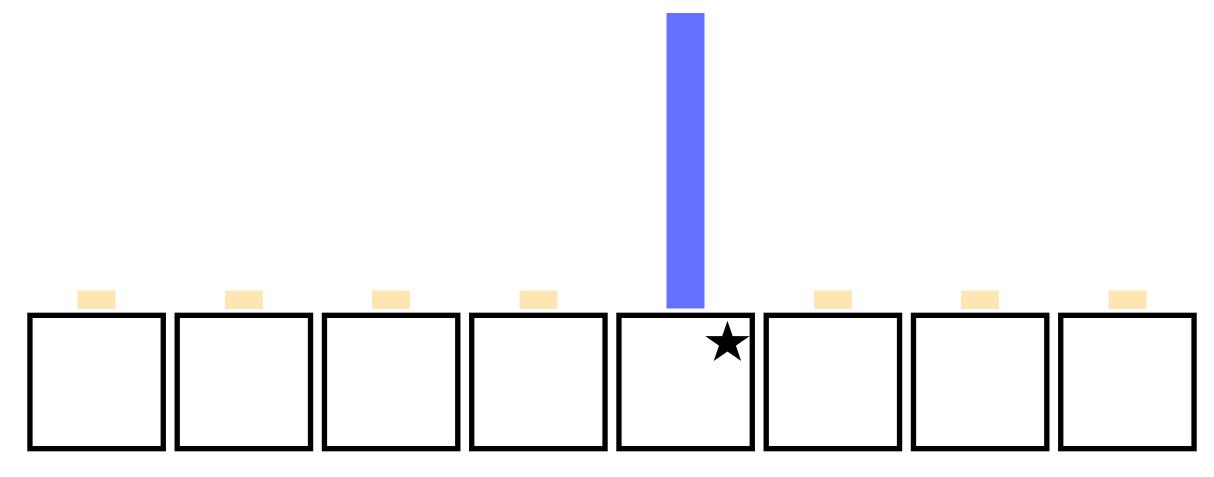

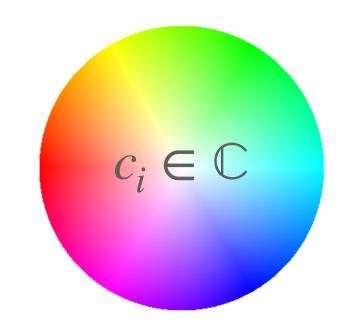

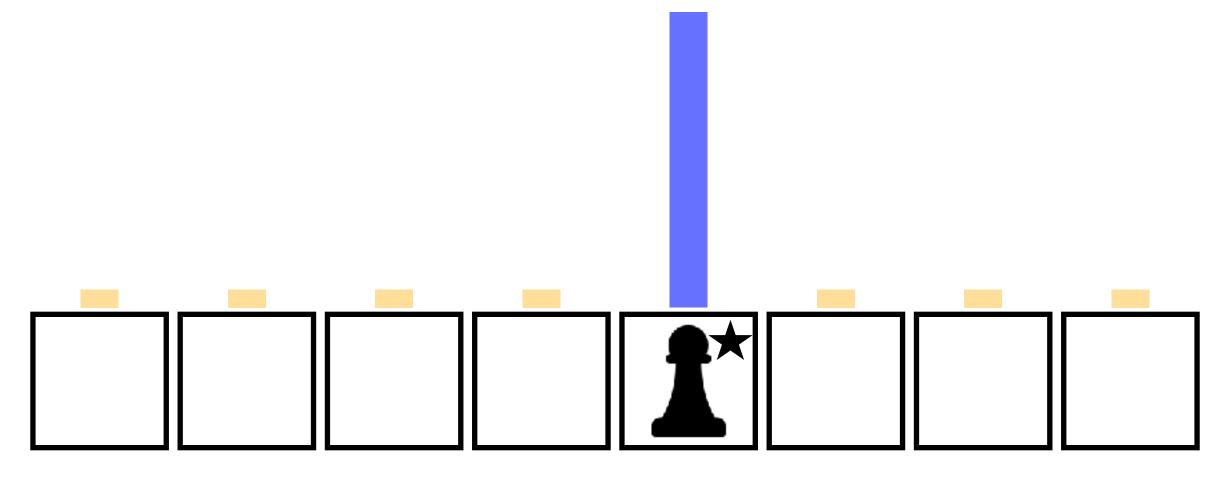

L'algorithme de Grover : la vie en couleur

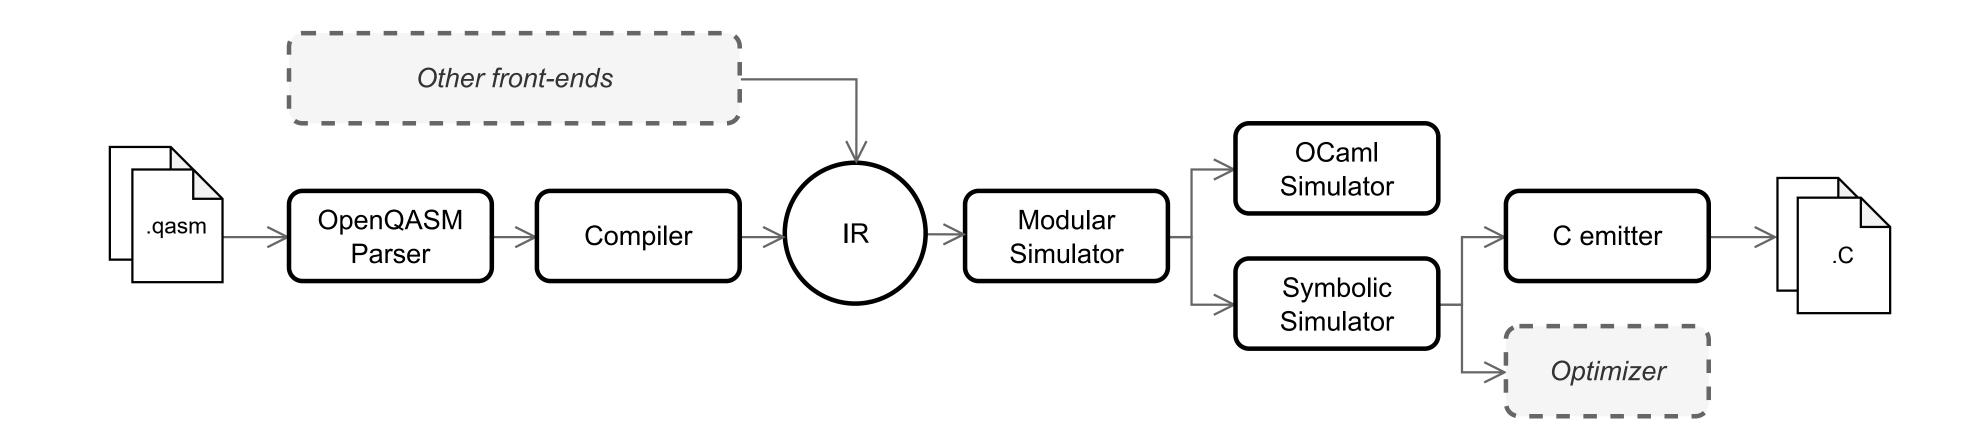

Complexité quantique :  $\Theta(\sqrt{N})$  étapes.
